What is Magic Quick Typer ?

💡 Smart Text Expander

Transform tiny shortcuts into full sentences, emails, or even paragraphs instantly. You can also assign shortcut keys to expand text quickly whenever you need.

📂 File and Folder Launching

Open files, folders & apps with just one keystroke !!

📋 Auto Form Filler

Auto-fill repetitive forms and emails instantly. You can even assign shortcut keys

⌛ Typing Delay Support

Perfect for remote or legacy apps. Seamless Typing with **Adjustable Delays** on Remote Desktops Applications.
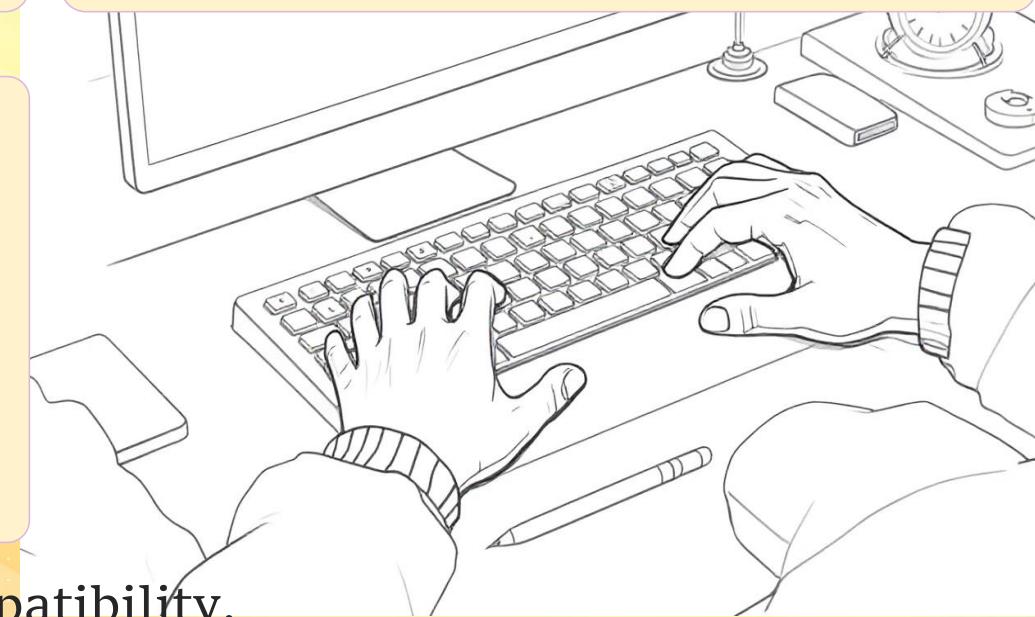

📊 Excel Customization

Everything is managed through Excel. Just add your shortcuts, and you're ready to go.

Available in both .exe and .ahk file formats for maximum flexibility and compatibility.

Set up your Shortcuts.xlsx file

1 **2** Short Text **3** **4**

Type	Name	Shortcut Key	Your Actions Here...
Hotstring	Greetings	Gm	Good Morning Have A Nice Day !!!!
Hotkey	Welcome	^w	Greetings! Thank you for choosing our services.

1

Type :
1. Choose **Hotstring** for short text expansions
2. **Hotkey** for keyboard shortcuts.

Shortcut Key (Ctrl+W)

3

Shortcut Key
Assign keys like *Ctrl + W* for Hotkeys, or short text like **Gm** for Hotstrings.

Symbol codes:

^ = Ctrl,

! = Alt,

+ = Shift

2

Name :
This is simply a label, so you can easily **identify** your shortcut.

4

Your Actions Here
This is the actual message that gets typed instantly.

Simple four-column structure makes customization intuitive and straightforward for any user.

Updating Your Shortcuts

1 **Exit Script**
Right-click tray icon → Exit to stop current session

2 **Edit Excel File**
Open **Shortcuts.xlsx** and **modify** your **shortcuts** and *Expanded text*

3 **Save Changes**
Save and close Excel file to preserve your updates

4 **Relaunch**
Start Magic Quick Typer again - new shortcuts ready instantly!

The entire update process takes less than a minute, making customization effortless.
